

Lake George West - Trails

The West Side has a series of trails that climb Forest Hill and skirt the shore. Many of the trails are rougher and steeper trails than those found in Lake George East. These trails are also ideal for winter snowshoeing.

If you're planning a family outing, the numerous vernal pools along the Porcupine Trail are ideal places to explore with children. The Island had facilities for picnicking and is also the location for the Lake George Fiddle Festival Held each spring.

Park maps and brochures are available from the ranger on duty.
